

mLocator Mobile Application FAQ

1) What is mLocator?

It is a location tracking solution exclusively for corporate customers, which is SIM based and can be used to attain the approximate location updates of a particular person via their mobile phone/device.

The product facilitates location based services through the geographical location calculated via GSM cell updates, tailor made to suit corporate customers. The system uses the location updates through the respective GSM cells and uses their locations to get the position of the user based on the signal strength to nearby antenna masts. This process does not require an active call.

2) What is the mLocator mobile app?

This is the mobile version of the original web interface solution.

We are releasing a mobile app for the admin interface of a location tracking system for the first time in Sri Lanka, where anyone can download the application through the Android App store and install in to their Mobiles. Now mLocator users simply can use the product by opening the application in their phones, instead of browsing the web and access the application through their phones.

3) For whom this app is designed?

For existing and new mLocator customers.

4) How to download the mLocator app?

Log on to Google Play & search for mLocator.

5) Is there any additional charge for this app?

App will be available to download free of charge. But you may be charged for the data consumption based on the mobile package that you have signed up for.

6) What are the main features of this app?

- Self-access to the system.
- View full history of tracked details of the users back to 30 days.
- Reasonable store of tracked numbers.
- Facility to view the current location details of the users via Google Maps.

7) What are the benefits of this app?

- Top most benefit is ability to experience the service through a mobile application.
- Hassle free since there is no need to browse the web.
- No additional cost, it is absolutely FREE!
- No technological hassles, therefore no wastage of effort.
- Timeless and flexible.
